# Solutions

*Most of us could do with dropping a few pounds before we hit the beach. Visit the **Anti-Ageing Health & Beauty Show 2014** to check out the hottest new products and procedures that will get you bikini-ready for the summer*

## **Did you know?**

59% of women would like to change the look of their stomach, according to a study conducted by the Anti-Ageing Health & Beauty Show.

## **New Instant fat buster**

Just launched in the UK, new VelaOnce enables you to drop a dress size after just one session. A combination of infrared, vacuum and bipolar radiofrequency is used to heat and dissolve fat cells - this promotes an increase in circulation, lymphatic drainage and collagen contraction, resulting in firmer skin.

## **Slimming potion**

Available at this year's show - Jenuve is one of Switzerland most sought after skincare brands. The potent body-contouring potions are made with plant and fruit based active ingredients such as mangosteen, white lupine and caffeine. They work brilliantly to stimulate circulation, drain toxins, breakdown fat cells and firm the skin.

## **Pin-perfecting leggings**

Visit the experts at Proskins to hear all about their revolutionary slimming clothing. We love the Proskins Slim leggings, which come with microscopic capsules of circulation-boosting caffeine, softening aloe vera and skin tone improving retinol woven into the fabric.

## **Drink yourself slim**

Constantly feeling peckish? Come along and try a shot of 'Be Skinny Drink Me'. The low calorie drink can help to keep your weight in check thanks to its star ingredient, glucomannan - a natural fibre that keeps you fuller for longer.

## **New body sculptor**

Flabby arms, tubby tummies and dimply legs beware! New non-invasive body sculpting treatment, Dermassage uses the latest ultrasound technology to boost the body's collagen, tighten elastin and permanently destroy fat cells, leading to firmer and tighter skin with a reduction in cellulite.
